Printing color PDFs (Adobe Acrobat Pro)

Wed, 12 Jun 2019 17:48:00 GMT

When you print a color PDF, all of the colors used in the file print on one plate. This process is called composite printing. The options available in the Output panel of the Advanced Print Setup dialog box depend on the selected printer.

Color PDF documents print in black only - Acrobat Users

Thu, 13 Jun 2019 01:54:00 GMT

All of my color PDFs will only print in black when printing from Adobe Acrobat 8 Pro. If I print the same document(s) from Adobe Illustrator or Adobe Reader 8 then it does print them in color.

how do I make the line thicker and change its colour ...

Sun, 16 Jun 2019 02:55:00 GMT

thank you for your answer to my question about adding a line to a PDF. I went into comment and added the line but can't see how to make it thicker and change the colour I went into comment and added the line but can't see how to make it thicker and change the colour
