

Color Printing Techniques The Kodak Workshop Series.pdf

[Based on Kodak ColorFlow Software](#)

Tue, 18 Jun 2019 16:58:00 GMT

Kodak ColorFlow Software. This color management solution is the foundation for integrating the many elements and devices that process, produce and affect color in digital, offset and flexo printing environments. ColorFlow Software is an integral part of the Kodak Prinergy Workflow. It can automate color adjustments, align curves and profiles, and increase productivity while reducing inconsistency.
